2018 PRIMROSE VINEYARD SHIRAZ

GROWING SEASON

2018 started off well, with Winter 2017 rainfall around 10% higher than average. However, Spring rainfall was only 78% of average and December rainfall was only 57% of average. Drier soils, combined with warmer than average October and November days, meant the vine canopies grew quickly; flowering well and setting a good number of bunches. January and February were warm and dry. Beautiful weather continued into March and early April, with average temperatures, without extremes, perfect for finishing off vintage. The result - an exceptional vintage across all red varieties. They are drinking well today and sure to age beautifully in the medium to long term.

TASTING NOTE

Our Single Block 'Vineyard Series' Primrose Shiraz from the excellent 2018 vintage again comes from a tiny patch of special shiraz grown high in the hills of famed Schulz Vineyard in the Ebenezer sub-region of the Northern Barossa. The soil in this section of the vineyard is rich ironstone over clay and limestone.

The wine has all the hallmarks of a Northern Barossa shiraz grown on ironstone soils - bright purple red hue, powerful black and blue fruits, full bodied, the dense fruit balanced by abundant natural tannins. This wine is well integrated but has ample to carry it forward in years to come.
